Jan 2019 — **UI/UX Designer** · Führerschein app · Germany

SELECTED WORK · CASE STUDIES AT MDANAIE.IR

- **Puzzleity**: A skills-assessment builder for employers, including coding tasks that are graded automatically. Later released as TikTalent. More than 100 assessments built with AI from the question bank; used by dozens of professors at Shahid Beheshti University and sold to a company in Australia.
- **PIAI**: A web app that takes people who don't code from a raw dataset to a trained model and prediction. Released and sold B2B; three large Australian companies were its early clients.
- **Kanoon student apps**: One hub for students and advisors of a national education organisation, replacing scattered apps. 12 apps released, plus the festival and olympiad websites. The online school was postponed.
